

Door UR 350

The UR 350 Padlock door is primarily designed to be used together with Troax UR 350 mesh panel. UR 350 doors and panels are ideal for secure environments where the risk of break-ins is low. The door leaf has a 30x20 mm steel tube frame and two horizontal tubes to create strength and stability. The 50x50 mesh aperture also makes it virtually impossible for a hand to reach through the mesh. Doors are supplied pre-assembled and are ready for installation.

FACTS

Door Dimensions

Height (mm)	Dooropening height (mm)	width (mm)
2200	1835	750
2200	1975	900

Mesh size: 50x50 mm, tube doorblade 30x20 mm, wire 3x3,75 mm
