# Storage system Troax Medium

Mesh Panel UX 450

UX 450 is a strong mesh wall with a good protection against burglary. Troax UX 450 is primarily used as a front wall in areas with already reasonable outer protection. UX 450 is compatible with UR 350 and UX 550. The Troax modular mesh panel system makes it possible to create separate storage areas in virtually any common space. The 50x50 mesh aperture also makes it virtually impossible for a hand to reach through the mesh.
