

## Smart Fix and Rapid Fix combined

The Combi Fix system combines our Rapid Fix and Smart Fix system by using the Rapid Fix lower bracket with a slot that the panel hooks into and the Smart Fix upper bracket that is very strong. This way you get a strong system that still is flexible when you need access to carry out maintenance.

Combi Fix system meets the requirements of the Machinery Directive and all components are held captive in the guard even when the system is disassembled.

### FACTS

#### System Posts

##### Post 60x40 x1,5 mm

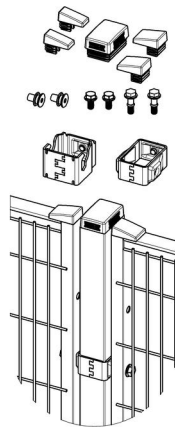

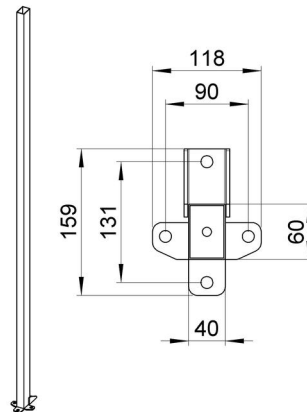

- 1400 mm height
- 2200 mm height
