

## Fully covered machine guard

The Safe Fix bracket adjoins the panels in front of each post, removing the gap between panels and posts. With the polycarbonate or steel sheet panels you can create a fully-covered machine guarding for applications with welding or splash risks.

With the kit Safe Fix junction, bolts are held captive in the guard even when the system is disassembled, fulfilling the requirements of the Machinery Directive.

### FACTS

#### System Posts

##### Post 60x40 x1,5 mm

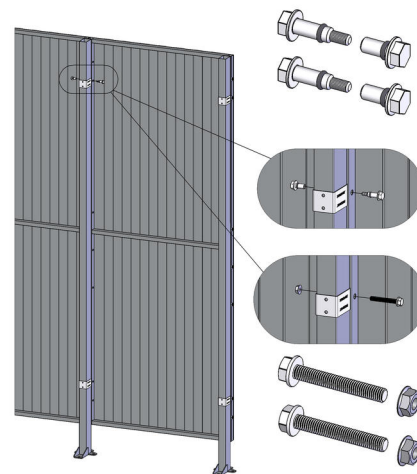

- 1400 mm height
- 2200 mm height
- 3000 mm height

Standard colour is grey RAL7037 and black RAL9005.  
Height 1400 mm and 2200 mm is also available in RAL1018.  
Any colour of your choice can be offered.

#### System brackets

- Bracket for tube 60x40
- Kit Safe Fix junction
- Extension Bracket 60x40
