

Mesh Panel UR 325

Caelum mesh partitioning is a modular system available in various widths and heights that is suitable for industrial storage applications. Mesh panels can be modified on-site to fit any space, providing security where required. Panels are constructed with a tubular welded frame that provides added strength. The system is fully demountable and relocatable, and allows natural light and ventilation. Panels are supplied powder coated as standard with a grey RAL 7037 finish; however other RAL colors are available upon request. Panels can also be supplied hot dip galvanized for external use or in cold storage areas.

FACTS

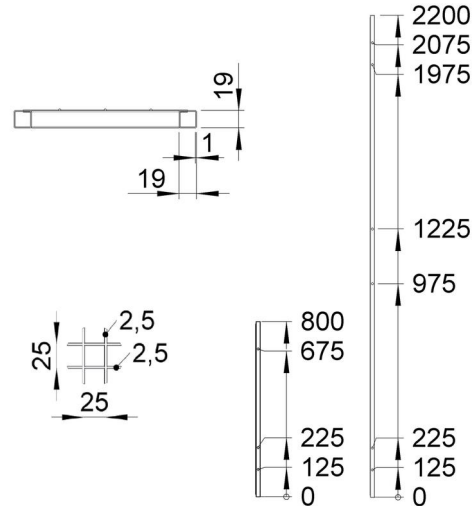

Panel Dimensions wallsection

Panel Height (mm)	Panel Width (mm)
2200	200
2200	300
2200	700
