

Panel fitted to already existing handrail

Kit Mesh on rail allows the assembly of standard wallpanels ST20 and UR350 to an already existing railsystem.

The flexibility in how to mount the kit to the rail makes it fit most systems made from round tubing. Bracket is also rubber damped in order to absorb vibration transferred in the handrail structure.

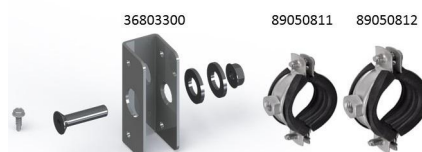

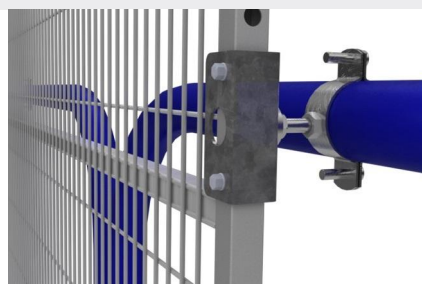

FACTS

System components

36803300	Kit panel to handrail (10pcs)
89050811	Clamp Ø40mm with rubber, M8
89050812	Clamp Ø50mm with rubber, M8

Kit 36803300 does not include any Clamps, these have to be added depending on tube dimension on rail Ø40mm or Ø50mm, other dimension can be provided on request.
Kit only fits panels ST20, UR350, UR300 and UR325.

System Panels

ST20	Mesh 4"x 25/32"
UR350	Mesh 2"x2"
UR300	Mesh 2"x4"
UR325	Mesh 1"x1"

For details of each panel type, see separate product sheets
